Technical skills

Languages :

JavaScript,
TypeScript

Back-end :

NodeJS,
Express,
FireBase,
JWT,
Socket.io

Front-end :

React,
React Native,
Next.JS,
Vue JS,
HTML,
CSS,
TailWind,
BootStrap,
NativeBase,

Management

tools:

Trello,
Git,
Miro

DataBases:

MongoDB,
MySQL,
Firebase,
Postgres

Soft skills

- Negotiation
- Fast learning
- Problem-solving
- Research skills
- Management
- SCRUM methodology
- constantly developing new skills and ability

○ VALERIA gallery SCRUM master 05/2023 to 06/2023

VALLERIA is a social media platform that allows the artists to share their content and helps the users discovering their art pieces such as NFTs and also the users have the ability to have a monthly subscription to an artist so they can get exclusive content and the users can DM each others.

Technologies used: React-Native, native-base, fireBase, cloundinary, socket.io, postgres, Prisma ORM, neon cloud database, expressJS, node.js.

- Preparing the project skeleton and creating the repo.
- Preparing the dataBase schema in the cloud using neonCloud.
- Working on the login & sign up, notifications, real time messaging.
- Preparing the trello board and deviding the tasks and merge the work to the main branch.

○ LINKED OUT SCRUM master 10/05/2023 to 20/05/2023

Linked-out is an MVP project that mimics some of linked-in features such as, creating an account, posting jobs posts, applying to job posts...

Technologies used are: React, BootStrap, MDB, Axios, Node.js, express.js, JWT, Bcrypt, MySql.

- Performing daily Standup meetings.
- Preparing the project skeleton.
- Preparing the database and the schema.
- Working on the all post, post details, applying to posts and navbar components. front-end & back-end.
- Tracking the team's progress using Trello to assure that we meet the requirements and deadline.
- Merging all the branches in the main branch after making sure of code quality.

○ ZARA clone Developer 22/05/2023 to 30/05/2023

The idea about this project is to create an improved version of the ZARA website with different and complex

Technologies such as: TypeScript, Next.js, Tailwind, Bootstrap, Axios, Node.js, Express.js, JWT, bcrypt MongoDB, Mongoose.

- Preparing the project skeleton
- Preparing the dataBase schema
- working navBar, sideBar, login & signUp, Home page, cart components
- Working on the authorization
